

OPULENCE SPECIFICATIONS | SOUTH EAST QUEENSLAND

OPULENCE SPECIFICATIONS | SOUTH EAST QUEENSLAND

These are the standard features that earn Fresh Homes a reputation for outstanding value and quality. With award winning designs & specifications to suit your busy lifestyle and the environment in which we live.

At Fresh Homes we build your new home to suit your needs not ours. Of course, we offer friendly advice on design aspects along with ways to save time and money to achieve your desired look & feel; and to keep your dream home affordable.

FIXED PRICE CONTRACT

At Fresh Homes we understand that buying a home is a major investment and the last thing you need are extra or hidden costs at the end of construction. That's why we offer a fixed price contract, so the amount you agree to is the amount you pay...not a cent more (subject to contract terms & conditions; HIA QC1 will be used as default).

This specification is based on the following site conditions and allowances...
• Standard engineer designed "S" class residential concrete slab on a flat level block up to 800m² • Standard house set back up to 6m • Underground power, Water & Sewerage connection to existing services • Earthworks up to 500mm cross-fall included • Surplus soil generated during the construction of the home, including topsoil and/or vegetation, will be stockpiled onsite. Removal of this material from site is not included in this contract, unless noted otherwise • Wind Speed N2 • Retaining walls, rock excavation and requirements to comply with sound transmission legislation are not included in this contract unless specifically noted otherwise • Our price includes the preparation of plans • Includes standard building permit application fees based on Brisbane City Council • Includes QBCC Insurance fees • Includes PLSL fees • The home is insured during the course of construction and professionally cleaned upon completion. Price includes G.S.T.

WARRANTIES

Fresh Homes includes an exclusive 25 Year non-transferable written Structural Warranty* with our homes. This is four times the period offered by most builders. The home is also fully covered by a 12 month defects liability period from the time of completion.

FUTURE REWARDS

Not only will you enjoy the quality craftsmanship, intelligent design, value for money and practical features of your new Fresh Home but we believe that you'll discover that these same high standards create a very attractive resale value.

ENERGY EFFICIENCY

Full 6 Star Energy Efficient Design with R2.5 Bulk Insulation included to Living areas and Alfresco, improving your quality of life and saving you money on a daily basis.

TERMITE TREATMENT

Termite prevention to Australian Standard (AS 3660) with physical barriers to all penetrations and a visual inspection zone to perimeter.
